SKILLS

- I am proficient in various design and engineering software, including AutoCAD, SolidWorks, Solid Edge, and ANSYS.
- I also possess intermediate knowledge of programming languages such as C++ and JavaScript.
- My background includes hands-on experience in mechanics, electrical systems, and automotive programming, complemented by strong computer skills that enable me to quickly learn and adapt to new technologies.
- In addition, I have practical experience in computer and mobile phone maintenance, further broadening my technical expertise.

LANGUAGES

- English: upper intermediate
- Turkish: upper intermediate
- Arabic: Native

PROFILE

Engineering graduate with strong knowledge in mechanical, electrical, and automotive systems. Proficient in AutoCAD, SolidWorks, Solid Edge, and ANSYS, with programming experience in C++, C#, and JavaScript. Hands-on training in engines, gearboxes, ECUs, sensors, and safety systems, combined with a solid academic background in physics, chemistry, mathematics, thermodynamics, heat transfer, and materials. Fast learner with strong problem-solving skills and adaptability in engineering and IT

EDUCATION

Bachelor in automotive engineering

Oct 2020 – Nov 2025

Afyon kocatepe University, Afyonkarahisar/Turkey

Academic and Technical Background:

During my four years of university studies, I gained comprehensive knowledge and practical experience in several areas:

- **Design and Engineering Software:** Skilled in AutoCAD, ANSYS, SolidWorks, and Solid Edge.
- **Programming:** Acquired foundational knowledge in C++, C#, and JavaScript.
- **Automotive Mechanics:** Hands-on training with diesel, gasoline, and gas engines, as well as gearboxes. Disassembled and studied each component to understand its function, operation, and manufacturing.
- **Automotive Electrical Systems:** Learned about ECUs, sensors, servo motors, and automotive safety systems.
- **Theoretical and Scientific Knowledge:** Studied core engineering subjects including physics, chemistry, mathematics, statics, dynamics, thermodynamics, mechanics of materials, heat transfer, fuel and oil

Internship

Auto mechanic trainee at Fiat dealership.gürses afyon motorlu araçlar ltd. sti.Afyonkarahisar JULY 2025_JULY 2025

I received comprehensive training in the maintenance of all types of vehicles, including trucks, medium-sized cars, sedans, and commercial vehicles. The program covered all major vehicle systems, such as gearboxes, engines (diesel, gasoline, and gas), suspension, brakes, safety and transmission systems. I was also trained in performing complete service tasks, including oil and fluid changes, filter replacements, and other essential maintenance procedures.
